

IT RECYCLING & E-WASTE SERVICES

Secure Data. Responsible Recycling.

Secure IT recycling and e-waste services that support equipment pickup, data destruction, hard-drive shredding, documented disposition, and environmentally responsible recycling.

CORE SERVICES

✓ IT Equipment Recycling

Coordinate responsible recycling of computers, servers, monitors, printers, phones, and other electronic equipment.

✓ Pickup Coordination

Schedule convenient collection of eligible electronic equipment from client facilities.

✓ Hard Drive Shredding

Physically destroy hard drives to reduce the risk of unauthorized recovery of sensitive information.

✓ Secure Data Destruction

Apply documented data-destruction processes before electronic assets are recycled or otherwise dispositioned.

✓ On-Site Options

Coordinate mobile or on-site destruction options when equipment or sensitive media should not leave the facility intact.

✓ Certificates of Destruction

Provide documentation confirming destruction of applicable data-bearing media and equipment.

✓ Asset Tracking

Record equipment and available serial-number information to support accountable IT asset disposition.

✓ Responsible Processing

Route electronic waste through environmentally responsible recycling and material-recovery processes.
